

SAL Heavy Lift, a member of the Harren & Partner Group, is one of the world's leading carriers specialized in sea transport of heavy lift and project cargo, with headquarters in Hamburg and nine offices abroad. The modern fleet of 21 heavy lift vessels offers highly flexible options to customers. The vessels of SAL boast an impressive travel speed of 20 knots, up to 3500 square metres of unobstructed main deck space and combined crane capacities ranging from 550 to 2000 tons: amongst the world's highest lifting capacity in the heavy lift sector. These vessels serve a highly specialized market with challenging transportation needs.

To strengthen our team in our headquarters in Hamburg, we are looking for a

SYSTEM ADMINISTRATOR / DIGITAL IMPROVEMENT EXPERT (M/F/D)

We offer you:

The opportunity to participate in a diverse, interesting and global IT landscape. You are working primarily at our two main locations in Hamburg and Bremen. This is also where our 15 overseas locations and the entire fleet of ships are connected which are all fully managed by our IT team. In this international environment you can contribute your English language skills daily and get into contact with colleagues from different countries and cultures. Due to the continuous further development of the IT infrastructure with state-of-the-art communication technologies, we offer you an exciting, diversified and future-oriented workplace.

Your responsibilities:

- Implementation of projects to digitize the company
- Implementation management for new software applications
- Database administration, backup and monitoring of the existing IT infrastructure in the office in Hamburg
- Recording, analysis and editing of applications and cross-system fault messages and service requests
- Securing the daily operation of the IT service in the user help desk
- Operation of the Microsoft server and client system infrastructure
- Support and leading of an IT specialist trainee

Your profile:

You are a certified IT specialist with focus on system integration or you have completed comparable studies and have at least five years of professional experience? You are characterized by a careful, structured and team-oriented way of working? Your goal is to work long term in an international shipping company and furthermore have the following proficiencies:

- Advanced knowledge in English
- Good knowledge of Microsoft Server Operating Systems
- Good knowledge of server virtualization and network infrastructure
- SQL skills
- Familiarity with MS Server 2012 R2 / 2016, Active Directory and MS Exchange
- Extensive knowledge of Windows 7/10 and MS office products
- Independent, structured and service-oriented way of working

Have we piqued your interest?

Then please send us your detailed application documents in electronic form stating the earliest possible starting date and your salary expectation.
